In Regard to the Legality of Commission e in New Hampshire.
Poirsnoi III, N. H., Oct. 22. Yesterday the first official steps were taken by the Democrats of the city to test the legality of the State police commission law. It is understood that the action is nominally brought by ex-Marshal Rowe and that he has the backing of several leading Democrats. A conference with Actionney General Eastman was held by Mr. Rowe's counselyes orday afternoon and it was agreed that a hearing should be had before Judge arrows at the present term of court and the case was at once certified up to the full bench as a once certified up to the full bench as a fonce certified up to the full bench as the bought in question by this action its outcome will be awaited with much interest.

New Church Successfully Organ-ized Tuesday Evening. The First Baptist church, of Brewer, was formally organized Tuesday evening at a meeting held for that purpose at the society's newly fitted and furnished church home in Burr block and the new church has had a 'very successful and auspicious start which it is hoped may be the beginning of a very prosperous

and healthy career.

BREWER BAPTISTS.

Tuesday evening's meeting was opened by a praise service conducted by Rev. G. B. Hsley, pastor of the Columbia street Baptist church, of Bangor, followed by prayer by Mr. J. H. Smith and Mr. C. D. Pressey. Then, after singing, Mr. A. G. Ray called the meeting to order and the letter and to letters of dismissal from the Columbia street Baptist church, of Bangor, to the new church of 26 members from Brawer were read and also the letters of two others desiring to join the new church, so it starts with a membership of 28. WINTER GROWN CELERY A BLEACHD O

it is a comparatively easy matter to grow celery for late spring and early

summer use He says

The seed is sown in late fall or early

winter in flats or seed pans. About (10

month after sowing the plants are prick ed out into other flats, where they stand

three or four ir ches apart each way A

month or so later they are transplanted into beds following lettice, can iflower etc thus for two months or more tak

ing up little or no room for the flats are placed in vacant places here and there throughout the house, and they

need little other care than watering

They should be kept cool for if one at tempts to force them they will likely

run to seed. When the plants are finally transplanted we like to put them in solid beds without bottom heat

plants are turned into permanent quar-ters they will be ready to bleach and

anything else Many plans were tried, but all failed, until thick, hard wrap ping paper; with an almost ' sized sur

face proved to be an admirable success

The stulks were brought together and

tied and a width of paper reaching to within two or three inches of the tips

of the leaves was rolled tightly abou the plant As the plant grew another width of paper was rolled about the

Was Accented.

Order Passed Granting The Right to Lay ter over. The Double Track.

A special meeting of the City Government was held last evening to consider and act upon the matter of the double track which the Public Works Company proposes to lay and which has been regarded with much interest by the citi-

zens generally.

After the Board of Aldermen had been called to order by the Mayor, Alderman Glass arose and made the majority report of the committee to which was referred the petition for the double track.

It was as follows: Bangor, October 21st, 1805.
To the City Council:

The City Council:
The juint special committee to whom was referred the petition of Charles Hamila and others have considered the januer that a said petition and herewith submit the following report thereon:

The undersigned members of the joint committee to whom was referred the petition of Charles Hamlin et als for double tracking Main earning tracking and the comments of the co ble tracking Main street and remitding the obligation of paving part there-of whenever the city decides to pave said street have considered the subject matter of said petition, and herewith submit the following report thereon:

That your committee think it unjust to oblige the Public Works Company to pave Main errect from curb to curb and recommend that an order passed recently be reacinded which imposes such an obliguation as a condition for double tracking but your committee does believe that the Rublic Works Company is bound to obey the ordinance which specifies that they shall keep in good repair inside and het ween their tracks and that the City Council cannot justly apply money appropriated for street department or paying to pave the railroad gread throughout our city whenever there is sufficient travel but can see no reason why we should expend thousands of dollars in performing the public duties of the company. Your committee therefore recommend the passage of the following order.

CHARLES F. WARD, matter of said petition, and herewith submit the following report thereon:

CHARLES F. WARD, Chairman Committee on Petition. Ordered, That the Public Works Compuny be and they are hereby authorized to construct a second railroad track on Main street, commencing at West Mar-ket square and ending at Cedur street turnout, all work to be done under di-rection of the street engineers, provid-ing, however, that said Public Works Company shall pave inside and between tracks whenever the city shall pave said street, and 18 inches outside with granite

Alderman Word moved the substitution of the minority report for the majority Alderman Wescott said that it was the

general opinion that the Hammond street extension would not be built i! the Public Works Company was not granted privileges. He believed it would be built and did not want to go on record as antagonizing the road. Alderman Ward said he had favored

cil by the President of the Public Works Company as being a benefit to the city duty. He asked who made up the poration and said that all knew where their bonds are owned. It is represented here by our friends, but duty should go before friendship. He thought the privilege ought not to

be granted and inquired if it was a business like proposition to expend \$2,500 of money when there was an agreement that the company should keep writing, French. its track inside and eighteen inches outside in order.
